

Scans and Artwork Requirements

Photoshop Scans (CS 6)

CMYK converted scan, JPEG, TIFF, PSD
Layered Files
High Resolution

Send all fonts used in your artwork, If you are unable to send us fonts, please convert text to paths/curves/outlines in Illustrator as a vector file or a separate layer in Photoshop.

Bleed - 3-5 mm bleed around the Scan

Make sure all files sent to use are high resolution, 300 dpi or More

Try Avoid using small white text, or drop outs, over process backgrounds.

Illustrator Artwork (CS 6)

CMYK Illustrator Files

Send any graphics used in the file separately, do not embed graphics in the file, keep as a separate link.
Send all fonts used in your artwork, please convert text to paths/curves/outlines in Illustrator as a vector file.

On small type sizes (4 to 8 pt) use boldface, san serif fonts. Make sure "TM" and "®" marks are large and bold enough to reproduce in a readable manner

Bleed - 3-5 mm bleed around the Scan

Try Avoid using small white text, or drop outs, over process backgrounds.

High Resolution Adobe Pdf

Scans (images) must be imbedded and please convert text to paths/curves/outlines.
